2021 Joint NCPA/NCPAA Conference

February 26th 2021

Welcome to the Joint North Carolina Political Science Association and North Carolina Public Administration Alliance 2021 Conference

Thank you for attending this year's virtual conference. We are excited to offer this year's conference in a virtual format and gather as we do every year to present current research projects, to discuss future collaborations, and to consider the contribution of political science and public administration to the political and health crises that are evident today. This meeting provides an important moment to bring together this research and knowledge, and to share this with retired faculty, faculty, practitioners, graduate students and undergraduate students.

Due to the virtual format attending this year's conference will look a bit different. I have included instructions below for attending the meeting on Zoom and how to access the panels. Additionally I have included a page at the end of the program that shows some step-by-step instructions as well.
